GROWN, not manufactured, from MUSHROOMS!

The first of the Mush-Lume and Mush-Bloom collection, the Mush-Lume Table Lamp was the jumping off point in the exploration of incorporating the innovative mushroom material into interior products. The table lamp's aesthetic is a visual representation of a mushroom, the building block of the lampshade's material that's organic, sustainable and biodegradable.

The Mush-Lume and Mush-Bloom collections are an initiative to start thinking differently about what our products are made from and how we can keep them out of landfills. We're working with Ecovative Design and their patented growing process to create ORGANIC, SUSTAINABLE and BIODEGRADABLE interior products
