

The Roadmap to Reduce US Food Waste

Source: cropmobster.com

Published: July 26, 2016

“If all this wasted food were grown in one place, this mega-farm would cover over 3/4 of California!

— The Roadmap to Reduce US Food Waste by 20%

CropMobster SF Bay Community! Here is one of the most insightful and straightforward videos on food waste ever produced in the United States. Not only due to a crisp illustration of the problems we face with food waste, but the opportunities and solutions. Please watch and share with your networks, neighbors and community leaders. We can do something about this and, in fact, you already are so let's keep trucking and fighting the good fight!

Learn how ReFED's Roadmap can empower us to cut food waste, boost the economy, reduce hunger, and help the environment (refed.com).
